

Professional Insulated Copper Winding Wire Wire Diameter 0.10mm-3.35mm

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: PEWF/U2
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Wire Diameter: 0.10mm-3.35mm
- Voltage Rating: Up To 2800V
- Enamel Thickness: Class Three
- Warranty: 3 Years
- Insulation Class: Class155
- Origin Country: China
- Insulation Material: Enamel
- Material: Copper
- Highlight: 0.10mm Insulated Copper Winding Wire,
Professional Insulated Copper Winding Wire,
3.35mm Insulated Copper Winding Wire

Product Description

Product Description:

The Enameled Copper Winding Wire is a high-quality product designed for various electrical applications. It features Enameled Copper Conductors that provide excellent conductivity and durability. This wire is perfect for use in transformers, motors, and other electrical equipment that require reliable performance.

The insulation material used in this wire is enamel, ensuring the safety and longevity of the wire. The Insulated Magnetic Copper Wire is designed to withstand high temperatures and harsh environments, making it ideal for a wide range of electrical projects.

With a Voltage Rating of up to 2800V, this wire is suitable for both low and high voltage applications. Whether you need to power a small electronic device or a large industrial machine, this wire can handle the job with ease.

The Wire Diameter ranges from 0.10mm to 3.35mm, providing flexibility in choosing the right size for your specific needs. This versatility makes it a versatile option for various projects, ensuring that you have the right wire for the job.

Originating from China, this product is manufactured with precision and high-quality standards. The expertise and craftsmanship of Chinese manufacturers ensure that you receive a reliable and efficient product that meets your requirements.

Backed by a 3-year warranty, you can trust in the durability and performance of this Enameled Copper Winding Wire. This warranty provides you with peace of mind, knowing that your investment is protected in case of any unforeseen issues.

Features:

Product Name: Enameled Copper Winding Wire

Enamel Thickness: Class Three

Voltage Rating: Up To 2800V

Material: Copper

Origin Country: China

Insulation Material: Enamel

Technical Parameters:

Warranty	3 Years
Enamel Thickness	Class Three
Insulation Class	Class155
Insulation Material	Enamel
Voltage Rating	Up To 2800V
Origin Country	China
Wire Diameter	0.10mm-3.35mm
Material	Copper

Applications:

PEWSC Enameled Copper Winding Wire (Model: PEWF/U2) is a high-quality product suitable for a variety of applications due to its excellent features and specifications. This insulated copper winding wire is widely used in different scenarios, providing reliable performance and durability.

Product Application Occasions and Scenarios:

Motor winding in industrial machinery

Transformer winding for power distribution

Solenoid coils in automotive systems

Magnetic coils in electronic devices

Generator winding in power generation units

PEWSC Enameled Copper Winding Wire, originating from China, meets the highest quality standards with UL certification, ensuring safety and reliability in various applications. With a wire diameter ranging from 0.10mm to 3.35mm, this insulated magnetic copper wire is versatile and can be used in different scenarios.

With a minimum order quantity of 300KG and flexible pricing depending on the order, PEWSC offers cost-effective solutions for your winding wire needs. The product is packaged securely in cartons for safe delivery.

Customers can expect fast delivery times of 3-5 work days and convenient payment terms of cash on payments. PEWSC has a supply ability to deliver within 10-15 days after the next order, ensuring continuous availability of the product.

PEWSC Enameled Copper Winding Wire comes with a 3-year warranty, reflecting the product's high quality and durability. The material used is pure copper with insulation class155, making it suitable for demanding applications that require reliable performance.

Choose PEWSC Enameled Copper Winding Wire for your winding needs, and experience the superior quality and performance of this enamelled copper magnet wire, manufactured in China to meet your specific requirements.

Customization:

Product Customization Services for Enameled Copper Winding Wire:

Brand Name: PEWSC

Model Number: PEWF/U2

Place of Origin: China

Certification: UL

Minimum Order Quantity: 300KG

Price: It depends on order

Packaging Details: Carton

Delivery Time: 3-5 Work days

Payment Terms: Cash on payments

Supply Ability: Delivery 10-15 Days after Next Order

Origin Country: China

Enamel Thickness: Class Three

Warranty: 3 Years

Material: Copper

Voltage Rating: Up To 2800V
