

Flat Enamelled Copper Rectangular Wire Solid Conductor Type for Electrical Applications

Our Product Introduction

for more products please visit us on enamel-wire.com

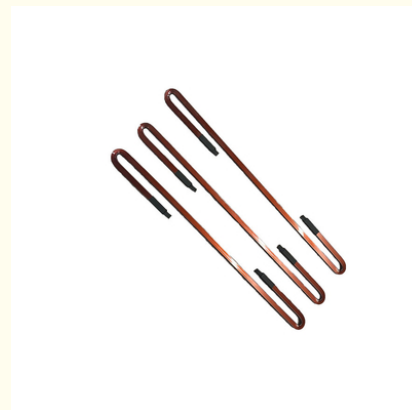

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: Flat Enamelled Copper
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Temperature Resistance: 240°C
- Color Option: Natural Red
- Product Type: HEVW -240C
- Color: Various Colors Available
- Packing: Spool, Coil, Or Customized
- Conductor: Oxygen Free Copper
- Shape: Flat
- Conductor Type: Solid
- Highlight: Rectangular Enamelled Copper Wire, Rectangular Flat Enamelled Copper Wire, Electrical Applications Flat Enamelled Copper Wire

Product Description

Product Description:

Looking for a reliable and efficient solution for your winding needs? Our Enameled Flat Copper Wire is the perfect choice for a wide range of applications. Available in natural and red color options, this product offers versatility and customization to suit your specific requirements.

Whether you prefer the convenience of a spool, the compactness of a coil, or need a customized packing solution, we have you covered. Our Enameled Flat Copper Wire is available in various packaging options, ensuring that you receive the product in the format that best fits your operations.

Designed in a flat shape, this wire is ideal for applications that require a specific form factor. The flat design allows for easy winding and installation, making it a popular choice for various winding applications.

Made from high-quality copper, our Enameled Flat Copper Wire ensures excellent conductivity and durability. The conductor material used is oxygen-free copper, which guarantees superior performance and reliability in demanding environments.

Whether you are in the electronics industry, automotive sector, or any other field that requires flat coated wire, our Enameled Copper Winding Wire is the ideal solution for your needs. Its superior quality, customizable packaging options, and flat shape make it a versatile and dependable choice for a wide range of applications.

Trust our Enameled Copper Winding Wire to deliver consistent performance and reliability in your winding projects. With its oxygen-free copper conductor and flat shape, this wire is designed to meet the highest standards and exceed your expectations.

Features:

Product Name: Enameled Flat Copper Wire

Size: Customizable

Shape: Flat

Color Option: Natural, Red

Temperature Resistance: 240°C

Product Type: HEVW -240C

Technical Parameters:

Shape	Flat
Product Type	HEVW -240C
Packing	Spool, Coil, Or Customized
Size	Customizable
Conductor Type	Solid
Temperature Resistance	240°C
Color Option	Natural, Red
Color	Various Colors Available
Conductor Material	Copper
Conductor	Oxygen Free Copper

Applications:

PEWSC's Corona-resistance Enamelled rectangular copper wires are a versatile product that can be used in a variety of applications across different industries. The enamelled flat copper wire is a high-quality product that offers excellent performance and durability. Enamelled Copper Winding Wire is commonly used in the manufacturing of transformers, motors, inductors, and other electrical equipment. The excellent electrical conductivity and temperature resistance of the wire make it ideal for applications where high performance is required.

Enamelled Copper Rectangular Wire is also widely used in the electronics industry for coil winding in various devices such as speakers, relays, and solenoids. Its high corrosion resistance and thermal stability ensure reliable performance in demanding environments.

PEWSC's product is certified by UL, ensuring the highest quality standards are met. The wires are manufactured in China, guaranteeing superior craftsmanship and expertise in production.

The minimum order quantity for the Enamelled Flat Copper Wire is 300KG, with pricing dependent on the order size. The packaging details include cartons for safe transportation and delivery within 3-5 work days.

Payment terms are cash on delivery, making transactions convenient and secure for customers. The supply ability of the product ensures quick delivery within 10-15 days after the next order is placed.

With various colors available, including Natural and Red, customers have the flexibility to choose the right wire for their specific application. The temperature resistance of 240°C and the use of Oxygen Free Copper as the conductor material further enhance the product's reliability and performance.

Customization:

Product Customization Services for Flat Coated Wire, Enamelled Copper Rectangular Wire, and Enamelled Copper Winding Wire: -----

Brand Name: PEWSC

Model Number: Corona-resistance Enamelled rectangular copper wires

Place of Origin: China

Certification: UL

Minimum Order Quantity: 300KG

Price: It depends on order

Packaging Details: Carton

Delivery Time: 3-5 Work days

Payment Terms: Cash on payments

Supply Ability: Delivery 10-15 Days after Next Order

Shape: Flat

Packing: Spool, Coil, Or Customized

Color: Various Colors Available

Conductor: Oxygen Free Copper

Size: Customizable

Support and Services:

Our Product Technical Support and Services team for the Enameled Flat Copper Wire is dedicated to providing assistance and guidance to customers regarding the proper use and application of our product. Whether you have questions about installation, maintenance, or troubleshooting, our team is here to help.

We offer comprehensive technical support resources, including user manuals, installation guides, and troubleshooting tips to ensure that our customers have the information they need to make the most of our product. Our experienced technicians are also available to provide personalized support and guidance for specific inquiries or issues that may arise.

In addition to technical support, we also provide a range of services to enhance the customer experience, such as product customization, training programs, and warranty support. Our goal is to ensure that our customers receive the highest level of support and service throughout their entire product lifecycle.

Packing and Shipping:

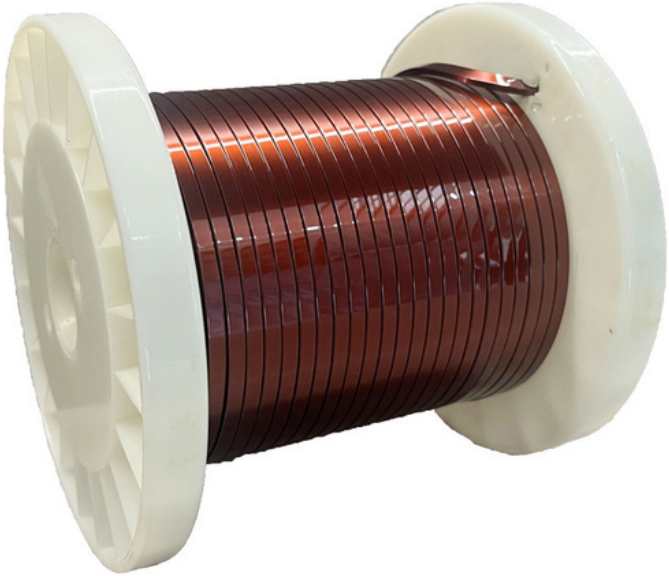

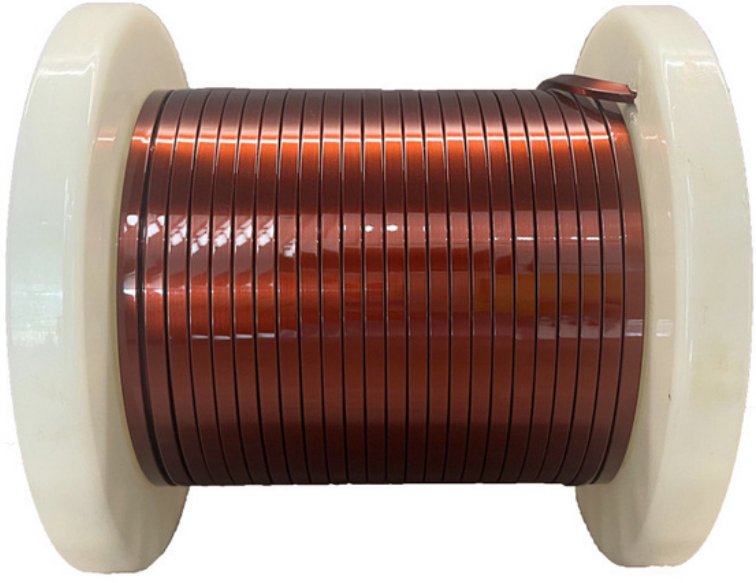

Product Packaging for Enameled Flat Copper Wire: -----

The enameled flat copper wire will be carefully packaged in a sturdy cardboard box to prevent any damage during transportation. Each spool will be securely wrapped to avoid any tangling or scratching.

Shipping Details:

The product will be shipped via a reliable courier service to ensure safe and timely delivery. Customers will receive a tracking number to monitor the shipment progress.
