

HEVW -200C Enameled Flat Copper Wire with Copper Conductor Material Customizable Option

Our Product Introduction

for more products please visit us on enamel-wire.com

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: Corona-resistance Enamelled copper wires
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Product Type: HEVW -200C
- Shape: Flat
- Conductor: Oxygen Free Copper
- Conductor Material: Copper
- Size: Customizable
- Conductor Type: Solid
- Color: Various Colors Available
- Color Option: Natural Red
- Highlight: **200C Enameled Flat Copper Wire, Customizable Option Flat Copper Wire, HEVW 200C Flat Copper Wire**

Product Description

Product Description:

The Enameled Flat Copper Wire, also known as Enamelled Copper Winding Wire, is a high-quality product designed for various electrical applications. This wire features a solid conductor type, providing excellent conductivity and durability for your projects.

The flat shape of the wire allows for easy winding and installation, making it ideal for use in motors, transformers, and other electrical devices. Whether you need to wind coils or create intricate designs, this Flat Coated Wire is versatile and reliable.

Available in natural and red color options, you can choose the Enameled Flat Copper Wire that best suits your design requirements. The natural color provides a classic look, while the red option adds a pop of color for visual differentiation.

When it comes to packaging, this wire is available in spools, coils, or can be customized to meet your specific needs. Whether you require a small spool for a hobby project or a large coil for industrial applications, the packaging options are flexible and convenient.

One of the key features of this Enameled Flat Copper Wire is its temperature resistance of up to 200°C. This high resistance to heat ensures that the wire maintains its performance even in demanding environments with elevated temperatures.

Whether you are a hobbyist, electrician, or manufacturer, the Enameled Flat Copper Wire is a reliable choice for your electrical wiring needs. With its solid conductor type, flat shape, color options, versatile packaging, and high temperature resistance, this wire offers the quality and performance you can trust.

Features:

Product Name: Enameled Flat Copper Wire

Conductor: Oxygen Free Copper

Shape: Flat

Size: Customizable

Color: Various Colors Available

Packing: Spool, Coil, Or Customized

Technical Parameters:

Temperature Resistance	200°C
Conductor	Oxygen Free Copper
Shape	Flat
Packing	Spool, Coil, Or Customized
Size	Customizable
Color	Various Colors Available
Product Type	HEVW -200C
Conductor Type	Solid
Conductor Material	Copper
Color Option	Natural,Red

Applications:

PEWSC Enameled Flat Copper Wire, also known as Enamelled Copper Winding Wire, is a high-quality product suitable for a variety of applications. With its exceptional attributes and certifications, this product is perfect for the following occasions and scenarios:

Transformer Manufacturing: The Corona-resistance Enamelled copper wires from PEWSC are ideal for use in transformer manufacturing due to their high temperature resistance of 200°C. The flat shape and solid conductor type make them easy to wind and connect, ensuring efficient performance.

Motor Rewinding: When it comes to motor rewinding applications, the PEWSC Enameled Flat Copper Wire is a top choice. Its customizable size and UL certification guarantee safety and reliability in motor operations. The copper conductor material ensures excellent conductivity and durability.

Coil Winding: Whether it's for electromagnetic coils or inductors, the PEWSC Enameled Copper Winding Wire is a preferred option. The flat coated wire design allows for neat and compact winding, while the solid conductor type ensures stable electrical connections.

Electrical Equipment Manufacturing: Manufacturers of electrical equipment can rely on PEWSC's Enameled Flat Copper Wire for consistent performance. The product's corona resistance and certification make it a trusted choice for various applications, such as in solenoids and actuators.

With a minimum order quantity of 300KG and flexible pricing based on the order size, customers can easily obtain the PEWSC Enameled Flat Copper Wire for their specific needs. The packaging details in cartons ensure safe transportation, and the quick delivery time of 3-5 work days allows for efficient production processes.

Customers can expect hassle-free transactions with cash on payments as the preferred payment terms. Additionally, the supply ability of delivering 10-15 days after the next order ensures a steady and reliable source of Enameled Copper Winding Wire from PEWSC, originating from China.

Customization:

Product Customization Services for Enameled Flat Copper Wire:

Brand Name: PEWSC

Model Number: Corona-resistance Enamelled copper wires

Place of Origin: China

Certification: UL

Minimum Order Quantity: 300KG

Price: It depends on order

Packaging Details: Carton

Delivery Time: 3-5 Work days

Payment Terms: Cash on payments

Supply Ability: Delivery 10-15 Days after Next Order

Color Option: Natural, Red

Color: Various Colors Available

Size: Customizable

Conductor Material: Copper

Packing: Spool, Coil, Or Customized

Packing and Shipping:

Product Packaging:

The Enameled Flat Copper Wire is carefully packaged in a sturdy cardboard box to ensure safe delivery. Each spool is securely wrapped and cushioned to prevent any damage during transit.

Shipping Information:

We offer fast and reliable shipping services for the Enameled Flat Copper Wire product. Orders are typically processed within 1-2 business days and shipped using trusted carriers to ensure timely delivery. Customers will receive a tracking number to monitor the status of their shipment.

FAQ:

Q: What is the brand name of the enameled flat copper wire product?

A: The brand name is PEWSC.

Q: Where is the enameled flat copper wire product manufactured?

A: The product is manufactured in China.

Q: What is the certification of the enameled flat copper wire product?

A: The product is UL certified.

Q: What is the minimum order quantity for the enameled flat copper wire product?

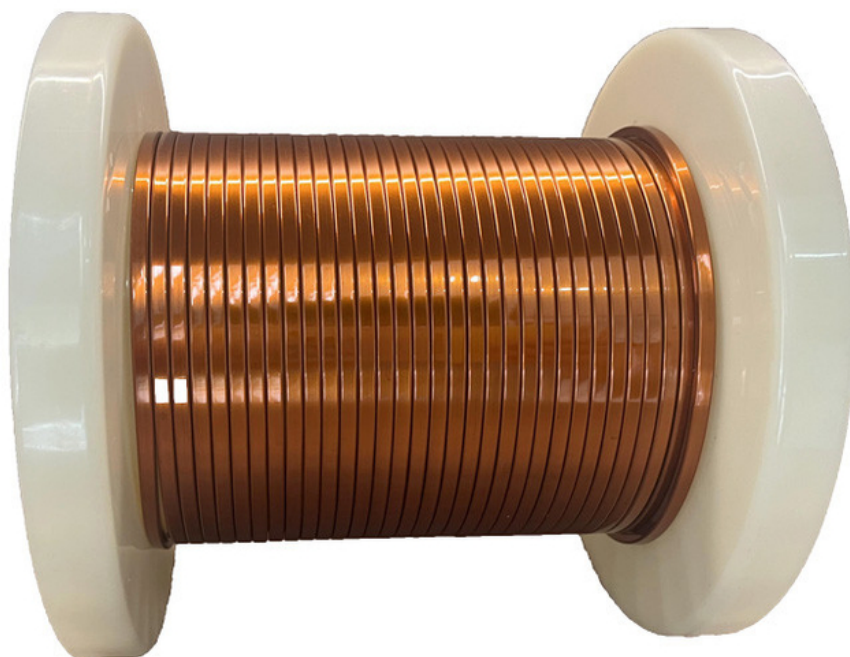

A: The minimum order quantity is 300KG.

Q: What are the payment terms for purchasing the enameled flat copper wire product?

A: The payment terms are cash on payments.
