

## Various Colors Oxygen Free Copper Conductor Enamelled Copper Winding Wire for Customizable Winding

Our Product Introduction

for more products please visit us on [enamel-wire.com](http://enamel-wire.com)

### Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

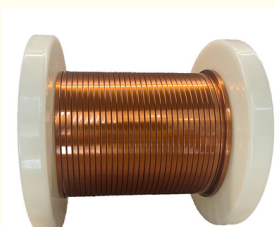

### Product Specification

- Product Type: HEVW -220C
- Conductor: Oxygen Free Copper
- Conductor Material: Copper
- Temperature Resistance: 220°C
- Size: Customizable
- Packing: Spool, Coil, Or Customized
- Shape: Flat
- Color: Various Colors Available
- Highlight: Customizable Winding Enamelled Copper Wire, Customizable Winding Copper Winding Wire, Oxygen Free Copper Winding Wire

## Product Description

### Product Description:

The Enameled Flat Copper Wire is a high-quality product designed for various electrical applications. With its flat shape and customizable size, this wire offers flexibility and versatility for different winding needs. The wire is made of oxygen-free copper, ensuring excellent conductivity and durability.

One of the key features of this Enameled Flat Copper Wire is its temperature resistance of up to 220°C, making it suitable for use in high-temperature environments. Whether used for transformers, motors, or other electrical equipment, this wire can withstand elevated temperatures without compromising its performance.

As an Enamelled Copper Winding Wire, this product is ideal for applications that require precise and reliable winding. The flat shape of the wire allows for efficient winding and compact coil designs, making it a popular choice among manufacturers and engineers.

Another advantage of the Enameled Flat Copper Wire is its conductor type, which is solid oxygen-free copper. This conductor type ensures low resistance and high conductivity, making it suitable for high-performance applications where efficiency is critical.

Manufactured to meet the highest industry standards, the Enamelled Copper Rectangular Wire offers exceptional electrical properties and mechanical strength. Its customizable size allows for tailored solutions to meet specific requirements, ensuring optimal performance in various applications.

Whether used in transformers, inductors, or other electrical devices, the Enameled Flat Copper Wire provides reliable performance and durability. Its solid oxygen-free copper conductor ensures minimal energy loss and maximum efficiency, making it a cost-effective solution for demanding applications.

In summary, the Enameled Flat Copper Wire is a versatile and reliable product suitable for a wide range of electrical applications. With its flat shape, temperature resistance of 220°C, customizable size, and solid oxygen-free copper conductor, this wire offers exceptional performance and efficiency. Whether used as Enamelled Copper Winding Wire or Enamelled Copper Rectangular Wire, this product is a top choice for engineers and manufacturers seeking high-quality winding solutions.

### Features:

Product Name: Enameled Flat Copper Wire

Size: Customizable

Shape: Flat

Product Type: HEVW -220C

Color: Various Colors Available

Conductor Material: Copper

### Technical Parameters:

Product Type	HEVW -220C
Temperature Resistance	220°C
Color	Various Colors Available
Packing	Spool, Coil, Or Customized
Conductor Material	Copper
Shape	Flat
Conductor	Oxygen Free Copper
Size	Customizable
Conductor Type	Solid

### Applications:

PEWSC Enameled Flat Copper Wire, model number HEVW-220C, is a versatile product suitable for various applications across different industries. With its origin in China and UL certification, this product guarantees high quality and reliability.

The enamelled copper rectangular wire is ideal for scenarios requiring a flat coated wire with solid conductor type. It is commonly used in applications such as motor winding, transformer winding, and electrical equipment due to its excellent conductivity and durability.

Whether you need the product in small quantities or bulk, the minimum order quantity of 300KG ensures flexibility in meeting your specific requirements. The price of the product depends on the order quantity, making it cost-effective for different budgets.

For packaging, the product comes in cartons and can be delivered within 3-5 work days after placing the order. Payment terms including cash on payments offer convenience for transactions.

The supply ability of delivering 10-15 days after the next order ensures a steady and consistent availability of the enamelled copper winding wire. Various colors are available, and the product can be packed in spools, coils, or customized packaging based on your preferences.

## Customization:

Product Customization.Services for.Enameled Flat Copper Wire: .....

Brand Name: PEWSC

Model Number: HEVW-220C

Place of Origin: China

Certification: UL

Minimum Order Quantity: 300KG

Price: It depends on order

Packaging Details: Carton

Delivery Time: 3-5 Work days

Payment Terms: Cash on payments

Supply Ability: Delivery 10-15 Days after Next Order

Temperature Resistance: 220°C

Shape: Flat

Packing: Spool, Coil, Or Customized

Product Type: HEVW -220C

Conductor: Oxygen Free Copper

Keywords: Enamelled Copper Winding Wire, Enamelled Copper Winding Wire, Enamelled Copper Rectangular Wire

## Support and Services:

Our.Product.Technical.Support.and.Services for.Enameled Flat Copper Wire.include: .....

- Expert guidance on selecting the right wire for your specific requirements
- Assistance with installation and application of the wire
- Troubleshooting support for any technical issues that may arise
- Product training and education to ensure proper use and maintenance

## Packing and Shipping:

**Product Packaging:** .....

The Enameled Flat Copper Wire is carefully packaged to ensure its safety during transportation. It is wrapped in protective material and placed in a sturdy cardboard box to prevent any damage or bending.

**Shipping Information:**

Once your order is placed, we will process it promptly and ship the Enameled Flat Copper Wire to your desired location. We use reliable shipping services to ensure your order reaches you in a timely manner and in perfect condition.

## FAQ:

**Q: What is the brand name of the enameled flat copper wire?**

A: The brand name is PEWSC.

**Q: What is the model number of the enameled flat copper wire?**

A: The model number is HEVW-220C.

**Q: Where is the enameled flat copper wire manufactured?**

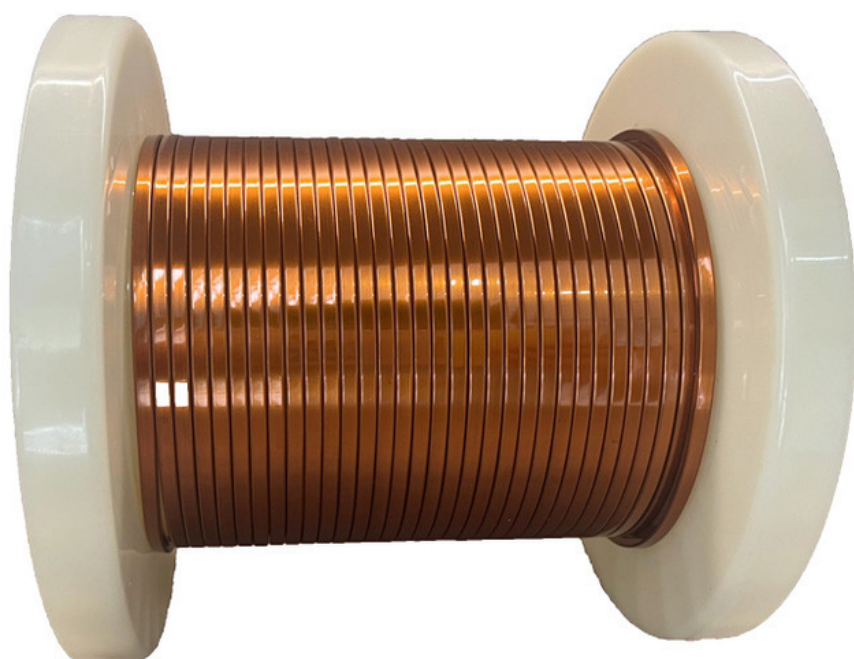

A: The product is made in China.

**Q: What is the certification of the enameled flat copper wire?**

A: The product is certified by UL.

**Q: What is the minimum order quantity for the enameled flat copper wire?**

A: The minimum order quantity is 300KG.
