Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

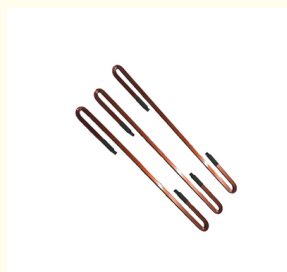

Product Specification

- Conductor: Oxygen Free Copper
- Product Type: HEVW -220C
- Conductor Type: Solid
- Shape: Flat
- Size: Customizable
- Conductor Material: Copper
- Packing: Spool, Coil, Or Customized
- Color: Various Colors Available
- Highlight: **Copper Conductor Enameled Flat Copper Wire, flat enameled copper wire, 220C Enameled Flat Copper Wire**

Product Description

Product Description:

The Enameled Flat Copper Wire is a versatile and high-quality product designed for various electrical applications. This wire is commonly known as Enamelled Copper Rectangular Wire, Enamelled Copper Rectangular Wire, or Flat Coated Wire. It is crafted from premium-grade copper, specifically Oxygen Free Copper, ensuring excellent conductivity and durability.

One of the key features of this product is its flat shape, which sets it apart from traditional round wires. The flat design offers unique advantages in certain applications, allowing for easier winding and space-saving configurations. Additionally, the size of the wire is fully customizable to meet the specific requirements of different projects.

Available in a wide range of colors, the Enameled Flat Copper Wire provides both functional and aesthetic benefits. The variety of colors allows for easy identification and organization of wires in complex electrical systems. Whether you need a specific color for coding purposes or simply want to add a touch of customization to your project, this wire has you covered.

As a conductor material, copper is renowned for its superior electrical conductivity, making it the ideal choice for various applications. The Oxygen Free Copper used in this wire further enhances its performance by minimizing the presence of oxygen and other impurities. This results in a purer conductor material that delivers efficient and reliable electrical transmission.

Whether you are working on electronic devices, motors, transformers, or any other electrical equipment, the Enameled Flat Copper Wire offers a dependable solution for your wiring needs. Its flat shape, customizable size, various color options, and high-quality conductor material make it a versatile and practical choice for professionals and DIY enthusiasts alike.

Invest in the Enameled Flat Copper Wire today and experience the benefits of using a premium wire product that delivers exceptional performance and reliability. With its combination of innovative design, customizable features, and superior materials, this wire is sure to meet and exceed your expectations for your electrical projects.

Features:

Product Name: Enameled Flat Copper Wire

Packing: Spool, Coil, Or Customized

Conductor Type: Solid

Size: Customizable

Conductor: Oxygen Free Copper

Shape: Flat

Technical Parameters:

Conductor Material	Copper
Shape	Flat
Size	Customizable
Product Type	HEVW -220C
Temperature Resistance	220°C
Conductor Type	Solid
Conductor	Oxygen Free Copper
Color	Various Colors Available
Packing	Spool, Coil, Or Customized

Applications:

Product Application Occasions and Scenarios for PEWSC Enameled Flat Copper Wire (Model: HEVW-220C)

Brand Name: PEWSC

Model Number: HEVW-220C

Place of Origin: China

Certification: UL

Minimum Order Quantity: 300KG

Price: It depends on order

Packaging Details: Carton

Delivery Time: 3-5 Work days

Payment Terms: Cash on payments

Supply Ability: Delivery 10-15 Days after Next Order

Conductor: Oxygen Free Copper

Size: Customizable

Shape: Flat

Conductor Type: Solid

Product Type: HEVW -220C
Flat Coated Wire, Enamelled Copper Winding Wire, Flat Coated Wire

Support and Services:

Our Product Technical Support team for Enameled Flat Copper Wire is dedicated to providing assistance with any technical inquiries or issues related to the product. Our team of experts is available to help troubleshoot problems, offer guidance on installation and usage, and address any performance concerns.

In addition to technical support, we also offer a range of services designed to enhance the overall customer experience with our Enameled Flat Copper Wire product. These services may include product customization, training sessions, warranty support, and more. We are committed to ensuring that our customers receive the highest level of support and service throughout their product journey.

Packing and Shipping:

Product Packaging:

The Enameled Flat Copper Wire is carefully packaged to ensure its safety during transportation. Each spool of wire is wrapped in protective material to prevent any damage or scratching. The spools are then placed in sturdy cardboard boxes with appropriate labeling for easy identification.

Shipping:

Our shipping process is efficient and reliable. The Enameled Flat Copper Wire products are shipped using reputable courier services to ensure prompt delivery. We take great care in packaging the products securely to prevent any damage during transit. Customers will receive tracking information once their order has been dispatched, allowing them to monitor the delivery status.

FAQ:

Q: What is the brand name of the enameled flat copper wire product?

A: The brand name is PEWSC.

Q: What is the model number of the enameled flat copper wire?

A: The model number is HEVW-220C.

Q: Where is the enameled flat copper wire product manufactured?

A: The product is manufactured in China.

Q: What is the certification of the enameled flat copper wire?

A: The product is UL certified.

Q: What is the minimum order quantity for the enameled flat copper wire?

A: The minimum order quantity is 300KG.
