

Solid Conductor Flat Coated Wire for Industrial Applications Customizable and Versatile

Our Product Introduction

for more products please visit us on enamel-wire.com

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Size: Customizable
- Temperature Resistance: 220°C
- Color: Various Colors Available
- Conductor Material: Copper
- Shape: Flat
- Product Type: HEVW -220C
- Conductor Type: Solid
- Packing: Spool, Coil, Or Customized
- Highlight: Solid Conductor Flat Coated Wire, Customizable Flat Coated Wire, Versatile Flat Coated Wire

Product Description

Product Description:

Are you looking for a versatile and reliable wire solution for your electrical projects? Look no further than our Enameled Flat Copper Wire. This high-quality wire is ideal for a wide range of applications, offering exceptional performance and durability.

The Enameled Flat Copper Wire is customizable in size, allowing you to select the perfect dimensions for your specific needs. Whether you require a small gauge wire for intricate projects or a larger gauge for heavy-duty applications, this wire can be tailored to meet your requirements.

With a flat shape, this wire is well-suited for projects that require a sleek and compact design. The flat profile of the wire allows for easy installation and positioning, making it a practical choice for various applications.

Constructed with a solid conductor type, the Enameled Flat Copper Wire ensures reliable conductivity and performance. The solid conductor design provides a stable electrical connection, making this wire suitable for applications where consistent and uninterrupted power flow is essential.

As a premium product, the Enameled Flat Copper Wire features a conductor material made of high-quality copper. Copper is known for its excellent conductivity and durability, making it an ideal choice for electrical wiring applications. The copper conductor of this wire ensures efficient energy transfer and long-lasting performance.

One of the standout features of the Enameled Flat Copper Wire is its availability in various colors. Whether you need to differentiate between different circuits, color-code your wiring, or simply prefer a specific aesthetic, this wire is offered in a range of colors to suit your preferences.

When it comes to versatility, reliability, and performance, the Enameled Flat Copper Wire stands out as a top choice for electrical projects. Whether you are working on electronics, appliances, motors, transformers, or other applications, this wire provides the durability and functionality you need.

Invest in the superior quality and performance of the Enameled Flat Copper Wire for your next project. With its customizable size, flat shape, solid conductor type, copper material, and various color options, this wire offers a comprehensive solution for your electrical wiring needs.

Upgrade your wiring projects with the exceptional properties of the Enameled Flat Copper Wire. Experience the benefits of using a top-of-the-line flat coated wire that delivers reliable conductivity, durability, and customization options.

Choose the Enameled Flat Copper Wire for your next project and enjoy the peace of mind that comes with using a high-quality, dependable wire solution. Trust in the proven performance and versatility of this enameled copper rectangular wire for all your electrical wiring needs.

Features:

Product Name: Enameled Flat Copper Wire

Conductor Type: Solid

Conductor: Oxygen Free Copper

Packing: Spool, Coil, Or Customized

Size: Customizable

Temperature Resistance: 220°C

Technical Parameters:

Conductor Material	Copper
Conductor	Oxygen Free Copper
Temperature Resistance	220°C
Size	Customizable
Packing	Spool, Coil, Or Customized
Color	Various Colors Available
Conductor Type	Solid
Product Type	HEVW -220C
Shape	Flat

Applications:

PEWSC Enameled Flat Copper Wire (Model: HEVW-220C) is a versatile product suitable for various applications across different industries. With its high-quality features and attributes, this enameled wire is ideal for a wide range of scenarios.

Product Application Occasions and Scenarios:

- Transformer Manufacturing:** The PEWSC Enameled Flat Copper Wire is perfect for use in transformer manufacturing due to its excellent conductivity and durability. It is commonly used in the winding of transformers.
- Motor Winding:** This enameled wire is well-suited for motor winding applications in industries such as automotive, appliances, and

electronics. Its solid copper conductor ensures reliable performance.

3. **Coil Winding:** The PEWSC Enameled Flat Copper Wire is widely used in coil winding processes for various electronic components. Its customizable size and availability in various colors make it a preferred choice.

4. **Solenoid Manufacturing:** This enameled wire is ideal for solenoid manufacturing, offering consistent performance and reliability. Its UL certification ensures compliance with industry standards.

5. **Inductor Production:** The PEWSC Enameled Flat Copper Wire is commonly used in the production of inductors for electronic devices. Its high supply ability and quick delivery time make it a convenient choice for manufacturers.

Key Product Attributes:

- Brand Name:** PEWSC
- Model Number:** HEVW-220C
- Place of Origin:** China
- Certification:** UL
- Minimum Order Quantity:** 300KG
- Price:** Depends on order
- Packaging Details:** Carton
- Delivery Time:** 3-5 Work days
- Payment Terms:** Cash on payments
- Supply Ability:** Delivery 10-15 Days after Next Order
- Conductor Material:** Copper
- Conductor Type:** Solid
- Size:** Customizable
- Color:** Various Colors Available
- Product Type:** HEVW -220C

Overall, the PEWSC Enameled Flat Copper Wire (HEVW-220C) is a reliable and efficient product suitable for a wide range of applications. Its high-quality construction and customizable features make it a valuable choice for industries requiring Enamelled Copper Rectangular Wire, Enamelled Copper Winding Wire, and Enamelled Copper Rectangular Wire.

Customization:

Product Customization Services for Enameled Flat Copper Wire: -----

Brand Name: PEWSC
Model Number: HEVW-220C
Place of Origin: China
Certification: UL
Minimum Order Quantity: 300KG
Price: It depends on order
Packaging Details: Carton
Delivery Time: 3-5 Work days
Payment Terms: Cash on payments
Supply Ability: Delivery 10-15 Days after Next Order
Conductor: Oxygen Free Copper
Packing: Spool, Coil, Or Customized
Product Type: HEVW -220C
Conductor Material: Copper
Color: Various Colors Available

Support and Services:

Our Product Technical Support and Services for Enameled Flat Copper Wire include: -----

- Technical assistance for product selection and application
- Troubleshooting support for any issues encountered
- Guidance on proper handling and storage of the wire
- Information on product specifications and capabilities
- Warranty information and claims processing
- Training and education resources for using the wire effectively

Packing and Shipping:

Product Packaging: -----

The Enameled Flat Copper Wire is carefully packaged in a sturdy cardboard box to ensure safe transportation. Each spool is securely wrapped in plastic to prevent any damage during shipping. The box is labeled with product information and handling instructions for easy identification.

Shipping:

We ship the Enameled Flat Copper Wire using reliable courier services to ensure timely delivery to our customers. The package is securely sealed and labeled with the recipient's address and tracking information for easy monitoring of the shipment's progress.

FAQ:

Q: What is the brand name of the enameled flat copper wire? -----

A: The brand name is PEWSC.

Q: What is the model number of the enameled flat copper wire?

A: The model number is HEVW-220C.

Q: Where is the enameled flat copper wire produced?

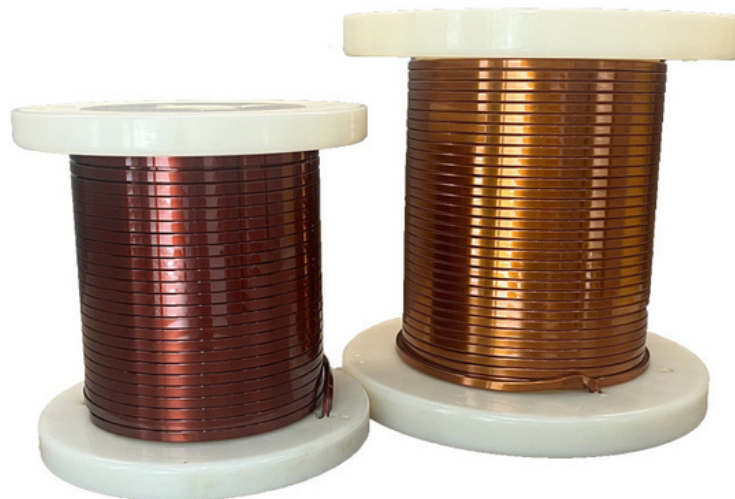

A: It is produced in China.

Q: What is the certification of the enameled flat copper wire?

A: The certification is UL.

Q: What is the minimum order quantity for the enameled flat copper wire?

A: The minimum order quantity is 300KG.
