

## Customizable Solid Oxygen Free Copper Conductor Flat Enameled Wire with High Temperature Resistance

Our Product Introduction

for more products please visit us on [enamel-wire.com](http://enamel-wire.com)

### Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

### Product Specification

- Conductor Material: Copper
- Temperature Resistance: 220°C
- Shape: Flat
- Conductor Type: Solid
- Packing: Spool, Coil, Or Customized
- Product Type: HEVW -220C
- Color: Various Colors Available
- Size: Customizable
- Highlight: Customizable Enameled Flat Copper Wire, High Temperature Resistance Flat Enameled Wire, Oxygen Free Copper Flat Enameled Wire

## Product Description

### Product Description:

The Enameled Flat Copper Wire is a high-quality product designed for various applications that require a reliable and efficient winding wire solution. Known for its exceptional temperature resistance of up to 220°C, this product is suitable for demanding environments and ensures long-lasting performance.

As a part of the HEVW -220C product type, this Flat Coated Wire offers superior capabilities for a wide range of electrical and electronic applications. Its unique flat shape provides advantages in terms of space efficiency and ease of winding, making it an ideal choice for projects requiring precision and compact designs.

Manufactured using high-quality copper, this Enamelled Copper Winding Wire guarantees excellent electrical conductivity and durability. The conductor material ensures optimal performance in various electrical circuits and applications, making it a reliable choice for professionals and hobbyists alike.

When it comes to packaging options, the Enameled Flat Copper Wire is available in spools, coils, or can be customized to meet specific requirements. This flexibility in packing allows for convenient handling and storage, catering to different project needs and preferences. In summary, the Enameled Flat Copper Wire is a versatile and dependable solution for applications that demand high temperature resistance, flat shape, copper conductor material, and customizable packing options. Whether you are working on electronics, electrical machinery, transformers, or any other project requiring Enamelled Copper Winding Wire, this product offers the quality and performance you need.

### Features:

Product Name: Enameled Flat Copper Wire

Shape: Flat

Product Type: HEVW -220C

Packing: Spool, Coil, Or Customized

Conductor Type: Solid

Conductor: Oxygen Free Copper

### Technical Parameters:

Conductor	Oxygen Free Copper
Shape	Flat
Temperature Resistance	220°C
Conductor Material	Copper
Product Type	HEVW -220C
Packing	Spool, Coil, Or Customized
Conductor Type	Solid
Color	Various Colors Available
Size	Customizable

### Applications:

PEWSC Enameled Flat Copper Wire (Model: HEVW-220C) is a versatile product suitable for a wide range of applications due to its high quality and reliable performance. This product, originating from China, is UL certified, ensuring its adherence to international quality standards.

The Enameled Copper Winding Wire is ideal for use in various scenarios such as electrical motors, transformers, inductors, and other electrical equipment where a flat coated wire is required. Its oxygen-free copper conductor ensures excellent conductivity and durability, making it a preferred choice for winding applications.

With a minimum order quantity of 300KG, customers have the flexibility to order according to their specific needs. The price of the product is dependent on the order quantity, and the packaging details include cartons for secure transportation.

Customers can expect a quick delivery time of 3-5 work days, with payment terms available as cash on payments. The supply ability of this product is efficient, promising delivery within 10-15 days after the next order is placed.

The Enameled Flat Copper Wire from PEWSC is available in various colors to cater to different preferences and requirements. The product is packed in spools, coils, or customized packaging, offering convenience and flexibility to customers.

In summary, the PEWSC Enameled Flat Copper Wire (HEVW-220C) is a reliable and high-performance product suitable for a wide range of applications in the electrical industry. Its solid copper conductor and flat coated design make it an excellent choice for winding applications requiring precision and efficiency.

## Customization:

Product Customization.Services for the **Enamelled Flat Copper Wire** :

**Brand Name:** PEWSC

**Model Number:** HEVW-220C

**Place of Origin:** China

**Certification:** UL

**Minimum Order Quantity:** 300KG

**Price:** It depends on order

**Packaging Details:** Carton

**Delivery Time:** 3-5 Work days

**Payment Terms:** Cash on payments

**Supply Ability:** Delivery 10-15 Days after Next Order

**Conductor Type:** Solid

**Shape:** Flat

**Conductor:** Oxygen Free Copper

**Color:** Various Colors Available

**Temperature Resistance:** 220°C

## Support and Services:

Our Product Technical Support and Services for Enameled Flat Copper Wire include:

- Assistance with product selection and specifications
- Guidance on installation and usage
- Troubleshooting and problem-solving support
- Maintenance tips and recommendations
- Warranty information and assistance with claims

## Packing and Shipping:

Product Packaging for Enameled Flat Copper Wire:

The enameled flat copper wire is carefully packaged in a sturdy cardboard box to ensure its protection during transit. Each spool is securely wrapped to prevent any damage or tangling.

Shipping Information:

Once your order is processed, the enameled flat copper wire will be shipped using a reliable courier service. You will receive a tracking number to monitor the status of your delivery. Please ensure someone is available to receive the package at the provided address.

## FAQ:

Q: What is the brand name of this enameled flat copper wire product?

A: The brand name is PEWSC.

Q: What is the model number of this enameled flat copper wire product?

A: The model number is HEVW-220C.

Q: Where is this enameled flat copper wire product manufactured?

A: This product is manufactured in China.

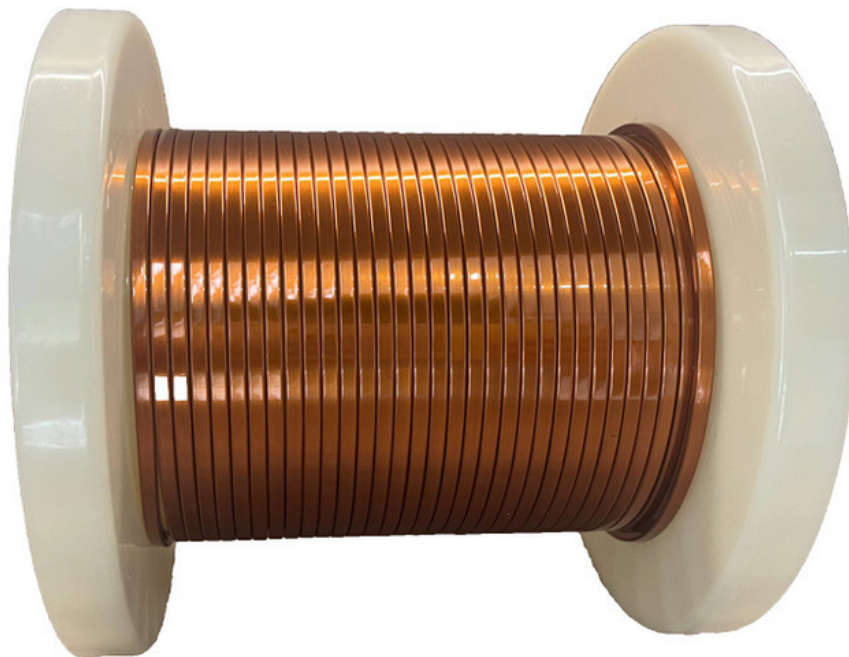

Q: What is the certification of this enameled flat copper wire product?

A: This product is UL certified.

Q: What is the minimum order quantity for this enameled flat copper wire product?

A: The minimum order quantity is 300KG.
