

High Conductivity Flat Copper Wire with Customizable Oxygen Free Copper Conductor Material

Our Product Introduction

for more products please visit us on enamel-wire.com

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Shape: Flat
- Conductor Type: Solid
- Color: Various Colors Available
- Size: Customizable
- Conductor Material: Copper
- Packing: Spool, Coil, Or Customized
- Conductor: Oxygen Free Copper
- Product Type: HEVW -220C
- Highlight: **Oxygen Free Flat Copper Wire, High Conductivity Flat Copper Wire**

Product Description

Product Description:

The Enameled Flat Copper Wire is a versatile and high-quality product suitable for a wide range of applications. With various colors available, this wire offers both functionality and aesthetics to meet your specific needs.

Designed with a solid conductor type, this wire ensures reliable and consistent performance. The solid conductor construction enhances the wire's durability and conductivity, making it ideal for demanding applications where stability is crucial.

The flat shape of this wire sets it apart from traditional round wires, providing unique advantages for certain applications. The flat design offers improved space utilization and efficient winding capabilities, making it an excellent choice for applications that require a compact and organized layout.

Constructed with copper, a highly conductive material, this wire delivers excellent electrical performance. Copper is known for its superior conductivity and thermal properties, making it an ideal choice for applications that require high efficiency and reliability.

As a HEVW -220C product type, this wire is specifically designed to withstand high temperatures, ensuring optimal performance in challenging environments. The HEVW designation indicates that the wire is suitable for use in high-temperature applications, making it a reliable solution for demanding conditions.

Whether you are looking for Enamelled Copper Rectangular Wire, Flat Coated Wire, or Enamelled Copper Winding Wire, this product offers the versatility and performance you need. Its flat shape, solid conductor type, and copper material make it a reliable choice for a wide range of applications.

Choose the Enameled Flat Copper Wire for its quality construction, versatile design, and reliable performance. With various colors available to suit your preferences, this wire is a practical and efficient solution for your electrical and winding needs.

Features:

Product Name: Enameled Flat Copper Wire

Packing: Spool, Coil, Or Customized

Color: Various Colors Available

Size: Customizable

Conductor: Oxygen Free Copper

Conductor Material: Copper

Technical Parameters:

Product Type	HEVW -220C
Color	Various Colors Available
Shape	Flat
Temperature Resistance	220°C
Packing	Spool, Coil, Or Customized
Size	Customizable
Conductor Type	Solid
Conductor	Oxygen Free Copper
Conductor Material	Copper

Applications:

Product Application Occasions and Scenarios for the Enameled Flat Copper Wire:

Brand Name: PEWSC

Model Number: HEVW-220C

Place of Origin: China

Certification: UL

Minimum Order Quantity: 300KG

Price: It depends on order

Packaging Details: Carton

Delivery Time: 3-5 Work days

Payment Terms: Cash on payments

Supply Ability: Delivery 10-15 Days after Next Order

Color: Various Colors Available

Conductor: Oxygen Free Copper

Product Type: HEVW -220C

Size: Customizable

Conductor Material: Copper

Customization:

- Product Customization Services for Enameled Flat Copper Wire:
- Brand Name: PEWSC
 - Model Number: HEVW-220C
 - Place of Origin: China
 - Certification: UL
 - Minimum Order Quantity: 300KG
 - Price: It depends on order
 - Packaging Details: Carton
 - Delivery Time: 3-5 Work days
 - Payment Terms: Cash on payments
 - Supply Ability: Delivery 10-15 Days after Next Order
 - Color: Various Colors Available
 - Packing: Spool, Coil, Or Customized
 - Conductor Type: Solid
 - Conductor Material: Copper
 - Product Type: HEVW -220C

Support and Services:

- Our Product Technical Support and Services for Enameled Flat Copper Wire include:
- Expert assistance with product selection and specifications
 - Guidance on proper handling and storage of the wire
 - Troubleshooting support for any technical issues
 - Customization options to meet specific requirements
 - Training resources and materials for efficient use of the product

Packing and Shipping:

Product Packaging:
The Enameled Flat Copper Wire is carefully packaged in a protective material to prevent any damage during transportation. It is then placed in a sturdy box with appropriate cushioning to ensure safe delivery.

Shipping:
Our company partners with reliable shipping carriers to deliver the Enameled Flat Copper Wire to your doorstep. We strive to provide fast and secure shipping services to ensure timely and safe arrival of your order.

FAQ:

- Q: What is the brand name of this enameled flat copper wire product?**
- A: The brand name is PEWSC.
- Q: What is the model number of this enameled flat copper wire product?**
- A: The model number is HEVW-220C.
- Q: Where is this enameled flat copper wire product manufactured?**
- A: It is manufactured in China.
- Q: What is the certification of this enameled flat copper wire product?**
- A: The product is UL certified.
- Q: What is the minimum order quantity for this enameled flat copper wire product?**
- A: The minimum order quantity is 300KG.
