

HEVW -220C Flat Copper Enameled Copper Wire for 220C Temperature Resistance and Conductor Material

Our Product Introduction

for more products please visit us on enamel-wire.com

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Conductor Material: Copper
- Size: Customizable
- Conductor: Oxygen Free Copper
- Temperature Resistance: 220°C
- Color: Various Colors Available
- Conductor Type: Solid
- Shape: Flat
- Packing: Spool, Coil, Or Customized
- Highlight: **220C Temperature Resistance Enameled Copper Wire**
, HEVW Flat Copper Enameled Copper Wire,
Conductor Material Enameled Copper Wire

Product Description

Product Description:

The Enameled Flat Copper Wire, also known as Enamel Copper Rectangular Wire, is a high-quality product suitable for various electrical applications. This wire is designed with precision and care to ensure optimal performance and durability. Available in a variety of colors, the Enameled Flat Copper Wire offers flexibility in design and application. Whether you prefer a traditional copper color or a more vibrant option, there is a color to suit your needs. The versatility in color choices allows for customization and personalization in your projects.

When it comes to packaging options, the Enameled Flat Copper Wire is available in spools, coils, or can be customized to meet specific requirements. This flexibility in packing ensures convenience and ease of use, whether you need a small amount for a DIY project or a larger quantity for industrial applications.

The shape of the Enameled Flat Copper Wire is flat, providing a unique design element compared to traditional round wires. The flat shape offers advantages in certain applications where space or aesthetics are a consideration. This shape also allows for easier handling and installation, making it a practical choice for various projects.

As for the conductor material, the Enameled Flat Copper Wire is made of high-quality oxygen-free copper. This conductor material ensures excellent conductivity and reliability in electrical circuits. The purity of the copper contributes to the overall performance of the wire, making it a dependable choice for demanding applications.

Overall, the Enameled Flat Copper Wire is a versatile and reliable product that meets the needs of various electrical projects. With its range of colors, packing options, flat shape, and high-quality conductor material, this wire is a top choice for engineers, hobbyists, and professionals alike. Whether you are working on a small-scale project or a large industrial application, the Enameled Flat Copper Wire provides the performance and durability you can trust.

Features:

Product Name: Enameled Flat Copper Wire

Packing: Spool, Coil, Or Customized

Temperature Resistance: 220°C

Conductor: Oxygen Free Copper

Conductor Type: Solid

Size: Customizable

Technical Parameters:

Temperature Resistance	220°C
Shape	Flat
Color	Various Colors Available
Packing	Spool, Coil, Or Customized
Product Type	HEVW -220C
Conductor	Oxygen Free Copper
Conductor Type	Solid
Size	Customizable
Conductor Material	Copper

Applications:

PEWSC's Enameled Flat Copper Wire (Model: HEVW-220C) is a versatile product suitable for various applications across different industries. With its high-quality attributes and reliable performance, this product is ideal for a wide range of occasions and scenarios. Enamel Copper Rectangular Wire is commonly used in the manufacturing of electrical components, transformers, motors, and inductors. Its flat coated design makes it perfect for applications where space is limited or where a specific shape is required. The Enameled Copper Winding Wire is particularly well-suited for use in high-temperature environments, thanks to its excellent temperature resistance of up to 220°C.

Manufactured in China, this product meets the highest quality standards and is certified by UL, ensuring its reliability and safety. The minimum order quantity for this product is 300KG, and the price varies depending on the order specifications. Each unit is carefully packaged in cartons for secure transportation and storage.

With a delivery time of 3-5 work days, customers can rest assured that they will receive their orders promptly. Payment terms are flexible, with cash on payments accepted. The supply ability of this product is impressive, with delivery typically taking place 10-15 days after the next order is placed.

PEWSC's Enameled Flat Copper Wire features a conductor material of oxygen-free copper, providing excellent conductivity and durability. The conductor type is solid, ensuring stable performance in various applications. The product is available in different packing options, including spool, coil, or customized packaging based on the customer's requirements.

Customization:

Product Customization Services for Enameled Flat Copper Wire:

- Brand Name: PEWSC
- Model Number: HEVW-220C
- Place of Origin: China
- Certification: UL
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order
- Packing: Spool, Coil, Or Customized
- Temperature Resistance: 220°C
- Conductor Material: Copper
- Color: Various Colors Available
- Product Type: HEVW -220C

Keywords: Flat Coated Wire, Enamelled Copper Winding Wire, Flat Coated Wire

Support and Services:

Our Product Technical Support team for Enameled Flat Copper Wire is dedicated to providing assistance with any technical inquiries or issues related to our product. Our knowledgeable specialists are available to help troubleshoot problems, offer guidance on product use, and provide solutions to ensure optimal performance.

In addition to technical support, we also offer a range of services to enhance the overall customer experience. These services may include product customization, testing and analysis, training programs, and product documentation. Our goal is to deliver comprehensive support to meet the specific needs of our customers and ensure their satisfaction with our Enameled Flat Copper Wire product.

Packing and Shipping:

Product Name: Enameled Flat Copper Wire

Product Description: High-quality enameled flat copper wire suitable for various electrical applications.

Product Specifications: Available in various sizes and lengths to meet different project requirements.

Packaging: The enameled flat copper wire is carefully packaged in spools or coils to ensure safe transportation and storage.

Shipping: We offer reliable shipping services to ensure prompt delivery of the product to your location.

FAQ:

Q: What is the brand name of this enameled flat copper wire?

A: The brand name is PEWSC.

Q: What is the model number of this enameled flat copper wire?

A: The model number is HEVW-220C.

Q: Where is this enameled flat copper wire manufactured?

A: It is manufactured in China.

Q: What certification does this enameled flat copper wire have?

A: It has UL certification.

Q: What is the minimum order quantity for this enameled flat copper wire?

A: The minimum order quantity is 300KG.
