

Customizable Oxygen Free Copper Flat Coated Wire for Solid Conductor Customized Industrial Solutions

Our Product Introduction

for more products please visit us on enamel-wire.com

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Packing: Spool, Coil, Or Customized
- Color: Various Colors Available
- Conductor Type: Solid
- Conductor Material: Copper
- Size: Customizable
- Shape: Flat
- Temperature Resistance: 220°C
- Conductor: Oxygen Free Copper
- Highlight: **Solid Conductor Coated Wire,
Coated Wire for Solid Conductor,
Customizable Copper Flat Coated Wire**

Product Description

Product Description:

Are you in need of high-quality enamelled copper rectangular wire for your winding applications? Look no further than our Enameled Flat Copper Wire product, designed to meet your specific needs with its excellent features and customizability.

Our Enameled Flat Copper Wire comes in a flat shape, making it ideal for winding applications where a rectangular profile is preferred. The solid conductor type ensures reliable performance and efficient electrical conductivity, meeting the demands of various industries and applications.

When it comes to packing options, you have the flexibility to choose from spools, coils, or opt for a customized packing solution based on your requirements. This allows you to select the most convenient packing method that suits your workflow and installation needs.

Available in a range of colors, our Enameled Flat Copper Wire offers versatility and customization options to match your specific design or aesthetic preferences. Whether you need a specific color coding for easy identification or simply prefer a particular color for your application, we have you covered.

One of the key features of our Enameled Flat Copper Wire is its customizability in size. You can specify the exact dimensions and specifications you need for your project, ensuring a perfect fit and optimal performance. Whether you require a standard size or a unique dimension, we can accommodate your requirements.

Whether you are looking for Enamelled Copper Rectangular Wire, Enamelled Copper Winding Wire, or Enamelled Copper Winding Wire, our product is designed to deliver exceptional quality and performance for your winding applications. Trust in our Enameled Flat Copper Wire to meet your needs with precision and reliability.

Features:

Product Name: Enameled Flat Copper Wire

Conductor Material: Copper

Conductor Type: Solid

Conductor: Oxygen Free Copper

Packing: Spool, Coil, Or Customized

Product Type: HEVW -220C

Technical Parameters:

Product Type	HEVW -220C
Shape	Flat
Conductor Material	Copper
Conductor Type	Solid
Color	Various Colors Available
Size	Customizable
Packing	Spool, Coil, Or Customized
Conductor	Oxygen Free Copper
Temperature Resistance	220°C

Applications:

Product Application Occasions and Scenarios for the Enameled Flat Copper Wire:

The PEWSC HEVW-220C Enameled Flat Copper Wire is a versatile product suitable for various applications across different industries.

Here are some common scenarios where this product is widely used:

1. Motor Winding: The flat coated wire is commonly used in motor winding applications due to its excellent conductivity and temperature resistance up to 220°C. It is ideal for both small and large motors.

2. Transformers: Enamelled copper winding wire is essential in transformer manufacturing. The flat shape allows for efficient winding and space-saving design, making it a preferred choice for transformer coils.

3. Inductors and Chokes: The flat coated wire is also used in the production of inductors and chokes where a solid conductor like oxygen-free copper ensures optimal performance and reliability.

4. Electrical Appliances: This product is commonly found in various electrical appliances such as fans, pumps, and compressors where customized sizes can be easily accommodated for different applications.

5. Automotive Industry: The PEWSC Enameled Flat Copper Wire is also utilized in the automotive industry for applications such as electric vehicle components, ignition systems, and other electrical circuits that require high temperature resistance.

With its UL certification and origin from China, customers can trust the quality and reliability of this product. The minimum order quantity of 300KG ensures bulk orders can be accommodated, and the pricing, packaging details in cartons, and fast delivery time of 3-5 work days make it a convenient choice for businesses. Payment terms of cash on payments provide flexibility, and the supply ability of delivery within 10-15 days after the next order ensures continuous availability of the product.

Customization:

Product Customization Services for **Enamelled Flat Copper Wire** : -----
Brand Name: PEWSC
Model Number: HEVW-220C
Place of Origin: China
Certification: UL
Minimum Order Quantity: 300KG
Price: It depends on order
Packaging Details: Carton
Delivery Time: 3-5 Work days
Payment Terms: Cash on payments
Supply Ability: Delivery 10-15 Days after Next Order
Conductor Material: Copper
Conductor Type: Solid
Conductor: Oxygen Free Copper
Packing: Spool, Coil, Or Customized
Size: Customizable

Support and Services:

Our company provides comprehensive Product Technical Support and Services for our Enameled Flat Copper Wire product to ensure customer satisfaction and product performance. Our team of experts is available to assist with any technical inquiries, troubleshooting, and product recommendations. We strive to deliver top-notch service to meet the needs of our customers and guarantee the quality and reliability of our Enameled Flat Copper Wire.

Packing and Shipping:

Product Packaging for Enameled Flat Copper Wire: -----
The enameled flat copper wire is carefully packaged in a sturdy cardboard box to ensure safe transportation and handling. Each spool is securely wrapped in protective material to prevent any damage during shipping.
Shipping Information:
Once your order is placed, our team will carefully pack the enameled flat copper wire and ship it via a reliable courier service. You will receive a tracking number so you can monitor the delivery status of your package.

FAQ:

Q: What is the brand name of this enameled flat copper wire? -----
A: The brand name is PEWSC.
Q: What is the model number of this enameled flat copper wire?
A: The model number is HEVW-220C.
Q: Where is this enameled flat copper wire manufactured?
A: It is manufactured in China.
Q: Does this enameled flat copper wire come with any certifications?
A: Yes, it is certified by UL.
Q: What is the minimum order quantity for this enameled flat copper wire?
A: The minimum order quantity is 300KG.
