

High Temperature Resistance HEVW -220C Enameled Flat Copper Wire with Oxygen Free Copper Conductor

Our Product Introduction

for more products please visit us on enamel-wire.com

Basic Information

- Place of Origin: China
- Brand Name: PEWSC
- Certification: UL
- Model Number: HEVW-220C
- Minimum Order Quantity: 300KG
- Price: It depends on order
- Packaging Details: Carton
- Delivery Time: 3-5 Work days
- Payment Terms: Cash on payments
- Supply Ability: Delivery 10-15 Days after Next Order

Product Specification

- Conductor: Oxygen Free Copper
- Color: Various Colors Available
- Conductor Material: Copper
- Size: Customizable
- Temperature Resistance: 220°C
- Product Type: HEVW -220C
- Shape: Flat
- Conductor Type: Solid
- Highlight: **220C Enameled Flat Copper Wire, Flat Copper Enameled Wire, High Temperature Resistance enameled copper wire**

Product Description

Product Description:

Introducing our premium Enameled Flat Copper Wire product, a top-of-the-line choice for various industrial applications. Crafted from high-quality Oxygen Free Copper, this wire offers exceptional conductivity and durability, making it a reliable solution for your electrical needs.

Available in a range of vibrant colors, our Enameled Flat Copper Wire allows for easy identification and organization in your projects. Whether you prefer classic copper tones or bold hues, we have the perfect color option for you.

The Product Type of our Enameled Flat Copper Wire is HEVW-220C, indicating its suitability for High Energy Vehicle Wiring applications with a temperature resistance of up to 220°C. This ensures that our wire can withstand high temperatures without compromising its performance, making it ideal for demanding environments.

Designed with a Solid Conductor Type, our Enameled Flat Copper Wire provides stability and strength for efficient electrical transmission. The solid construction enhances the wire's durability and resistance to wear and tear, ensuring long-term reliability in your installations.

When you choose our Enameled Flat Copper Wire, you are investing in a high-quality product that meets industry standards and exceeds expectations. Its versatility, temperature resistance, and solid conductor type make it a superior choice for a wide range of applications, from automotive to industrial settings.

Experience the superior performance of our Enameled Flat Copper Wire today and enjoy the benefits of reliable electrical connectivity, enhanced durability, and effortless installation. Trust in our product to deliver outstanding results for your projects, whether big or small.

Features:

Product Name: Enameled Flat Copper Wire

Conductor Material: Copper

Product Type: HEVW -220C

Temperature Resistance: 220°C

Conductor: Oxygen Free Copper

Size: Customizable

Technical Parameters:

Product Type	HEVW -220C
Color	Various Colors Available
Shape	Flat
Temperature Resistance	220°C
Conductor Material	Copper
Conductor Type	Solid
Packing	Spool, Coil, Or Customized
Size	Customizable
Conductor	Oxygen Free Copper

Applications:

PEWSC Enameled Flat Copper Wire, also known as Enamelled Copper Winding Wire, is a versatile product suitable for a variety of application occasions and scenarios due to its unique attributes.

Manufactured in China, the HEVW-220C model offers high-quality performance and is UL certified, ensuring reliability and safety in its usage. With a minimum order quantity of 300KG and a price that varies depending on the order, this product is suitable for both small-scale projects and large industrial applications.

The packaging details for the Enameled Flat Copper Wire include cartons, providing convenience and protection during transportation and storage. Customers can expect a quick delivery time of 3-5 work days, with payment terms available on cash basis.

PEWSC Enameled Flat Copper Wire comes with a supply ability that ensures timely delivery, with the next order ready to be shipped within 10-15 days. The product is available in various packing options such as spools, coils, or customized packaging according to specific requirements.

With a conductor made of Oxygen Free Copper, this Flat Coated Wire features a solid conductor type, making it durable and efficient for different applications. Its shape is flat, allowing for easy winding and installation in various devices and equipment.

The Enameled Copper Winding Wire is designed to withstand high temperatures up to 220°C, making it suitable for applications where temperature resistance is crucial. Whether used in motors, transformers, or other electrical components, this product guarantees excellent performance and longevity.

Customization:

Product Customization.Services for.Enameled Flat Copper Wire: -----
Brand Name: PEWSC
Model Number: HEVW-220C
Place of Origin: China
Certification: UL
Minimum Order Quantity: 300KG

Color: Various Colors Available
Keywords: Enamelled Copper Winding Wire, Flat Coated Wire, Enamelled Copper Winding Wire

Support and Services:

Our.Enameled Flat Copper Wire product comes with comprehensive Product Technical Support and Services to assist you with any -----
inquiries or issues you may encounter. Our team of experts is dedicated to providing you with accurate technical information,
troubleshooting guidance, and assistance in optimizing the performance of your enameled wire. Whether you require product
specifications, installation assistance, or troubleshooting support, our technical support team is here to help.

Packing and Shipping:

Product Packaging: -----
The Enameled Flat Copper Wire is carefully packaged in a sturdy cardboard box to ensure safe transportation and storage. Each spool is
securely wrapped to prevent any damage during shipping.
Shipping:
We offer worldwide shipping for the Enameled Flat Copper Wire. Orders are processed promptly and shipped using reliable courier
services to ensure timely delivery to our customers. Each package is tracked to provide real-time updates on the shipping status.

FAQ:

Q: What is the Brand Name of this Enameled Flat Copper Wire product? -----
A: The Brand Name is PEWSC.
Q: What is the Model Number of this Enameled Flat Copper Wire product?
A: The Model Number is HEVW-220C.
Q: Where is this Enameled Flat Copper Wire product manufactured?
A: It is manufactured in China.
Q: What is the Certification of this Enameled Flat Copper Wire product?
A: The Certification is UL.
Q: What is the Minimum Order Quantity for this Enameled Flat Copper Wire product?
A: The Minimum Order Quantity is 300KG.
